## MRECW TECHNICAL CLUBS

### AI & ML CLUB

Artificial Intelligence and its associated technologies have become the buzzwords of companies, individuals and even governments, transforming every walk of life. Artificial intelligence forms the basis for all computer learning and is the future of all complex decision making. A subset of Artificial intelligence (AI), machine learning (ML) is the area of computational science that focuses on analyzing and interpreting patterns and structures in data to enable learning, reasoning, and decision making outside of human interaction.

The AI & ML Club provides the members to gain practical and theoretical exposure to these rapidly progressing areas of Artificial Intelligence and Machine Learning. It facilitates them to work in teams or on individual projects to explore fundamental areas of AI & ML and broaden their skills and knowledge.
